Dnepropetrovsk State Medical Academy

About city

Dnepropetrovsk City

Dnepropetrovsk is Ukraine's fourth largest city, with about one million populations. It is 242 miles (390 km) southeast of the capital Kiev on the Dnieper River, in the south-central part of Ukraine. A vital industrial centre of Ukraine, Dnepropetrovsk was one of the key centres of the nuclear, arms, and space industries of the Soviet Union. In particular, it is home to the Yuzhmash, a major space and ballistic missile design bureau and manufacturer. Because of its military industry, Dnepropetrovsk was a closed city[^8] until the 1990s. It is named in honor of Grigory Petrovsky.

Dnepropetrovsk is a powerhouse of Ukraine's business and politics as the native city for many of the country's most important figures. There are hundreds of industrial companies in the city.

Climate: During the summer, Dnepropetrovsk is very warm (average day temperature in July is 24 to 28 °C (75 to 82 °F), even hot sometimes 32 to 36 °C (90 to 97 °F). Temperatures as high as 36 °C (97 °F) have been recorded in May. Winter is not so cold (average day temperature in January is −4 to 0 °C (25 to 32 °F), but when there is no snow and the wind blows hard, it feels extremely cold. A mix of snow and rain happens usually in December.
**Transport:** The main forms of public transport used in Dnepropetrovsk are trams, buses, electric trolley buses and marshrutkas—private minibuses. In addition to this there are a large number of taxi firms operating in the city, and many residents have private cars. Dnepropetrovsk also has a metro system, opened in 1995, which consists of one line and 6 stations.

The largest bus station in eastern Ukraine is located in Dnepropetrovsk, from where bus routes are available to all over the country, including some international routes to Russia, Poland, Germany, Moldova and Turkey. It is located near the city’s central railway station.

The city has a large railway junction, with many daily trains running to and from Eastern Europe and on domestic routes within Ukraine. There are two railway terminals, "Dnepropetrovsk Glavnij" (main station) and "Dnepropetrovsk Yuzhnyi" (south station).

The city is served by an Dnepropetrovsk International Airport (IATA: DNK) and is connected to European and Middle Eastern cities with daily flights.

---

**About University**

Dnepropetrovsk State Medical Academy (DSMA) was founded on September 15, 1916. Institute acquired the status of State Academy in 1920 and it was confirmed again to Dnepropetrovsk State Medical Academy (DSMA) in Ukraine in 1994 by the order of the Cabinet of Ministers of Ukraine № 224 dated 20 April 1994.

Hostel

Accommodation

Dnepropetrovsk State Medical Academy (DSMA) has 7 hostels for students with area of 46000 sq.m.

2849 students can stay at the Academy's hostels. The Academy has a sports complex (which includes gaming, fencing, fitness room, table tennis hall, wrestling, swimming pool, shooting gallery, a sports stadium with tennis courts), vivarium, a sanatorium, country sports camp for 250 people, academic library with electronic devices, Techno center and two museums.

**DSMA** has a very good hostel system with fully furnished rooms, quite study environment and surrounded with recreation center.

For the convenience of the students, they can choose their roommates; they can stay together if they belong to same city if they want,

There are several accommodation options for international students and it is important to consider whether you prefer an independent lifestyle or enjoy living in a community.

**All rooms in hostels are provided with internet facility.**

Rooms on campus are available to students. All hostel rooms are furnished and vary in size and number of conveniences. Dormitory rooms at hostel can accommodate 2 or 3 students to a room.

All rooms are equipped with bed, mattress, pillow, blanket, desk, chair, Almira, heating, water system and suitable lighting for both study and relaxation. There are common areas where students can play and mingle. Upon the students arrival on campus, specific accommodations are assigned and after a satisfactory health report the student will be accommodated to the room which is allotted to him.

Off campus housing can be obtained in nearby apartments. Available apartments and houses are furnished, and vary in size, cost and number of conveniences. Life in Kharkov is friendly and devoid of rush. While at first some students may miss their home environment, native foods, or a hurried pace, they soon learn to appreciate and enjoy a cultural difference of their own.

All the rooms are provided with heaters. Our hostels feature 24-hour access to security and emergency services, making it easy to get assistance when you need it. As a campus resident, you also have access to all support services such as campus Security Services, counseling Services and health Services.

If you take a University room, we’ll ask you to follow our basic regulations. These are to ensure that everyone can live together happily and safely, so include such things as no noise after 11pm and showing consideration for others

### Mess

University has its own mess system, where Indian food is available, veg and non veg meals available to choose for the students.

Each Hostel has a separate kitchen provided for students to cook food to their own taste. Students will need to supply their own kitchen utensils. Meals may be bought from various food outlets.

All types of vegetables, grains, pulses and fruits are available all around the year. Indian cooks are generally Panjabi and south Indian. They prepare delicious dishes every day.

Messes managed by Indians only, so all care are taken to provide best foods. Students can feel like home made dishes.

### Documents

1. Valid passport
2. Class 12 mark or grade sheet
3. Class 10 mark sheet
